bilts, Moores, Gould, Pennsylvania and Rockefeller. While they conflict at times, their struggles are in the matter of acquiring properties, not in better or cheaper transportation, but in more stocks and bonds, upon which the public must furnish money to pay dividends.

"The control of the railroads of the country has passed from trained railroad operators to bankers, who speculate in railway stocks. A notable result of this condition is the withdrawal of authority from the local management and local superintendence, the reduction of salaries to those actually doing the work of transportation, and the dwarfing of the power and capacity of the men upon whose management the public must immediately depend. To this, at least in part, is due the recent pendency towards a less efficient service.

"The interest controlling the railroads, as a rule, study the problem of making immense fortunes at once out of the increased stock and bond issues. The right to earn a just income on the actual investment in the properties does not interest them. They are careless of the duties owed by the transportation companies to the public.

"The railroad properties of the United States are capitalized at over $13,000,000,000. Careful estimates of their actual value show them to be worth less than $6,000,000,000. The public, therefore, are being called on to pay excessive rates for transportation to make interests and dividends on $7,000,000,000 of watered stocks and bonds. These bonds and stocks rest like a permanent mortgage on the industries of those engaged in the various avocations of life.

"The transportation company is a public enterprise. The railroad is built by the use of the state's power of eminent domain. The public are entitled to a voice in the charges which are made by the railroad company for carrying passengers and freight. These charges must be reasonable and free from discriminations.

"The duties of a railroad company are dual: First, to the public; second, to its stockholders.

"The public must look to the states and to the nations to protect their rights. When we realize that over half the stocks and bonds issued by the railroad companies of the United States are speculators, and not based upon money actually invested in the properties, we see how recklessly the rights of the public have been disregarded.

"I present to you no struggle of labor against capital. I urge no contest of poverty against property. I plead for the rights of the property owners and their employees of the United States, of the men owning industrial and manufacturing enterprises, of the men owning agricultural interests, and of the great body of men dependent upon their efforts. I plead for the legitimate rights of the public against the mismanagement of quasi-public corporations.

"Instead of exhausting the capacity of our transportation companies to pay dividends on watered stock and bonds, the public were entitled to have all the money realized from the sale of stocks and bonds invested in the properties. Thereby the facilities of the transportation companies should have been improved. The public was furthermore entitled to a reduction in transportation charges as the volume of business increased and the cost of service lessened.

"That there is a friend of thought more and more favorable to government ownership of transportation companies, I do not doubt. While there are advantages as well as disadvantages to be derived from government ownership of all the railroads, it is hardly more than academic question at present. Anything approximating wholesale government ownership would be impossible for many years to come, and the remedy immediately before us must necessarily be to perfect the legal authority in properly constituted agents to regulate and control, and then to enforce through these agents the rights of the public.

"The rate-making power has been given to the national railroad commission. We should not be afraid [illegible] men

questions. Their pay should be ample, and a seat upon the national railroad commission should be regarded as one fully as exalted as a seat upon the supreme court bench of the United States.

"Additional powers should be given to the commissioners. Bonds and stock issues upon interstate railroads should be submitted for their approval, and none should be permitted unless the money derived from their sale is to be spent upon the properties made liable for them.

"Transportation companies should not be permitted to load down their properties with stocks and bonds for speculative purposes. The railroad commission should have the fullest power to compel proper facilities to retaliate with a reduction of service, or by cutting pay of employees, should be met by severe personal punishment to the guilty officers. State commissions should be empowered with full authority in matters of interstate transportation. Public sentiment should sustain state and national commissions in the most vigorous enforcement of the duties confided to them.

NO BIG BATTLE HAS BEEN FOUGHT

Honduras and Nicarauga Are Still Only

SKIRMISHING FOR THE VANTAGE

Each Side Has Made Claims of Victories Not Warranted by the Facts, and Each Has Denounced Reports Sent Out by the Other as False.

Puerto Cortez, Honduras, March 10, via New Orleans, March 15.—In spite of the claims made by commanding officers on each side that "The enemy has been vanquished in an important battle," the fighting between Honduras and Nicaragua has up to the present time been confined to small engagement between scouting parties on one or the other on the frontier encounters that anywhere else would be classed as skirmishes.

Each side has made claims of victories not warranted by the facts, and each has called the reports sent out by the other false and misleading. But while there has been no battle as yet, all the conditions are ripe for a serious engagement. It is a mistake to characterize all Central American fighting a comic opera performance.

Much of the fighting here is comparatively not serious, but the warring elements of these states have shown in the past that they can, on occasion, put up a good stiff fight, and if the arrayed forces of Honduras and Nicaragua do meet in a general engagement the conflict in no sense will be consequential or to be laughed at.

The actual situation of armed hostility between Honduras and Nicaragua, from the Honduran side, is as follows:

The skirmish at San Macos, a village in Honduras, about 5 miles from the Nicaraguan frontier, was inconsequential. The main Honduras force is at Choluteca to Texiguar, Guinepa and Yuscaran. These four towns are in practically a straight line and about 20 miles from the frontier.

President Bonilla is waiting for further reinforcements from Tegucigalpa and for arms from the the United States. He would like also to have the first serious engagement on Honduras territory in order ot be able to demand that Salvador make good her promise to help him in case of war.

The presence of President Bonilla in the field has stimulated these Hondurans so that the men have confidence, and he is a fighter of experience. He has a strong personal following in Salvador as well as the confidence of the Salvadoran army and every one here is expecting to hear any day that Salvador has decided to fight with him. Honduras has armed already between sixteen and eighteen thousand men, and fifteen thousand more are being equipped at the capital.

WOMAN INJURED ON A CAR.

Mrs. Bowden Knocked to Floor by Controller Explosion.

Atlanta, March 16.—Mrs Emma Bowden, a dressmaker, of 211 West West Fair street, was knocked to the floor and probably badly injured, as the result of the explosion of the controller of a West Fair street car.

Mrs. Bowen was on her way home. She boarded the car at the corner of Pine and Peachtree streets. Just as she steped on the platform and opened the door to enter the car, the controller exploded, and she was thrown to the floor, her left side and left arm being painfully if not seriously injured.

The car being disabled by the bursting of the controller, the conductor and motorman helped Mrs. Bowen on a Woodward avenue car bound for the center of the city.

She stated that her left arm and side pained her greatly, and that, while she knew her arm was not broken, she feared that the injury to her side would be more serious.

At the corner of Broad and Peachthree and Marietta streets, she was helped from the car to a drug store, where a note of the case was made by a street car inspector. Last night she was reported as resting easy.

National Child Labor Law.

Chicago, March 16.—A national law prohibiting or regulating the employment of child labor in the United Staes is the only practicable method of dealing with this phase of the social problem in America, according to the Rev. A. J. McKelway, assistant secretary of the national child labor committee. "I want to see the big stick at Washington shaken over the heads of those who employ child labor," said Mr McKelway on Thursday night in an address at the Chicago industrial exhibit. I want to see this problem made a national issue and carried into the federal courts. Child labor is the cure of the textile trades. It is literally true that the clothing you have on, from the stocking on your foot to the flower on your hat, may have been, and probably was in some part, the product of child labor. The time will come when the American will boycott articles made by child labor."

Woman Burns to Death.

LaGrange, Ga., March 16.—Mrs. Dixie Borders met an awful death at her home, west of LaGrange, about noon Thursday. She was alone at home with her children, and when found she was lying about one hundred yards from the house and unconscious, so severely burned that she died soon after being found. It is supposed her clothing accidentally caught fire, when she ran from the house, and no help being at hand suffered terribly until mercifully relieved by insensibility. Mrs. Borders was the sister of J. P. Bennett, of this city She was the mother of several children, one a babe of six weeks.

Mob Lynches Two Negroes.

New Orleans, La., March 16.—Flint Williams and Henry Gardner, two young negroes, were taken from the city jail about 1 o'clock and hanged in the court house square by a party of about fifty. Both negroes confessed to having, with a third negro, shot and robbed the two Italians on Monday night. Gardner also confessed to having entered the room of Miss Jessie Bumpus about 3 o'clock Thursday morning. The whole affair was quietly planned after the caputre and confession of the negroes and was carried out without a hitch. The keys to the jail were taken from a police officer at the point of a pistol.

Prohibition at Jackson.

Jackson, Miss., March 16.—By a vote of 9[illegible] Jackson on Thursday declared itself a prohibition town. The election was on the question of petitioning the present legislature to abolish the city's charter for re-incorporation under the Pendleton law, which prohibits licensing of saloons. Early Thursday 4,000 women and children began marching the streets, despite the cold rain, singing prohibition songs and carrying banners. They worked at the polls all day, serving lunches to the voters. The saloons will have until Nov. 1 to close out.

IMMENSITY OF FLOOD AMAZES PITTSBURGERS

Ten Square Miles of the City Is Submerged.

INDUSTRIES GREATLY DAMAGED

One Hundred Thousand Persons Have Been Temporarily Thrown Out of Employment—Situuation Outside of Pittsburg Is Serious.

Pittsburg, March 16.—Pittsburgers are amazed at the immensity of the flood in the Monongahela, Allegheny and Ohio rivers which has submerged 110 squuare miles in the downtown section of the city. After reaching the highest stage ever known, which was 37 feet at Market street, the water is now slowly receding. Enormous damage to industries has been caused; over 100,000 persons have been temporarily thrown out of employment. Every [illegible]ation company in the city [illegible]d; skiffs are carrying hundreds of people to their places of business; the utilization of wagons and horses as conveyances, which did inestimable service Thursday, were discontinued owing to strenuous protest by the humane societies; immense damage has been done to Allegheny county and an almost unique sights ever seen are apparent.

The Sixteenth, Ninth, Seventh and Sixth street bridges were threatened with destruction owing to heavy ice gorges which came down the Alle[illegible].

That the bridges were not swept away is considered marvelous by river men and it is said that these structures will be found to have been greatly weakened when the water subsides.

Frightened feminine guests in the Lincoln, Colonial, Annex and Anderson hotels, located in the midst of the flood zone, are marooned and are watching the high water from the winodws.

Four theaters, the Gaiety, Alvin, Belasco and Bijou, are flooded and will be dark for several days.

Most of the fire engines in the down town districts are pumping water out of the buildings along Fifth Ave. At the First National bank building at Fifth avenue and Wood street, the basement is submerged to a depth of several feet and efforts are being made to protect the dynamos which generate power to the Western Union Telegraph office. The office of the Associated Press is located in this building and momentarily it was expected through the night that the wires of the business organizations would fail.

Strenuous efforts of a force of men assisted by a fire engine, saved the dynamos, but shortly before 9 o'clock the electric light dynamo succumbed to the effect of the waters.

The situation outside of Pittsburg is serious.

Damage running into million of dollars has been done; many towns are cut off from this city; upwards of thousands of families have been forced from their homes and these conditions is expected to prevail for several days.

At Wheeling, great damage has been done. Train and telegraph service is out of commission, and the residents are panic-stricken.

The crest of the flood has not yet reached that point, and the situation grows serious.

To add to the confusion in Pittsburg, two early morning fires broke out. The firemen experienced difficulty in fighting the flames owing to a shortage of water in the mains.

Wellsville, O., March 16.—Twenty-three streets here are under water. About 400 houses are flooded.

Monticella, Ga., Man Appointed.

Washington, March 16.—It practically has been decided by Secretary Straus to appoint J. L. Benton, a well known young business man of Monticello, Ga., as a special agent of the department to go abroad and investigate the market for cottonseed products.

THE MUNICIPAL LEAGUE.

Meeting Called for Monday Evening at P. O. S. of A Hall.

Notice is hereby given to the members of the Municipal League that there will be a meeting of the League at the P. O. S. of A. hall, 113 East Union street, at 7:30 o'clock Monday evening next.

All members are requested to meet promptly at that hour.

A Modern Home.

Decidedly one of the prettiest and most convenient residences in the city is the two-story cottage just completed by the popular contractors, Malphurs & Tuttle, for Prof. McBeath on North University street. The plan was gotten up by Prof. McBeath himself, and all who have examined it say that it has more room for the amount of ground occupied than any house they have ever seen, and the arrangement is quite as pleasing and convenient as it is economical.

We understand the plan will be duplicated by a number of our citizens who are contemplating building this spring.

AT THE CHURCHES TODAY.

List of Various Places of Worship, Where Those Desiring May Attend.

There will be fine services at the various churches today. The services will be as follows:

First Methodist Church, Rev. T. J. Nixon—Sunday school at 9:30 a. m. Preaching by the pastor at 10:45 a. m.; subject, "The Best for Christ" Junior League at 2:30. Senior League at 3 p. m.; leader, N. G. Goodnow. No evening service.

At the Tabernacle the Presbyterians will have their service, which will comprise a morning service and sermon by Rev. Thos. P. Hay, and the Sunday school at the regular hour, 3 o'clock. Members are requested to note the change of place of worship, as the Presbyterians have formerly been holding services in the Baptist church.

At the Baptist church this morning Dr. Andrew Sledd will preach, having kindly consented to fill the pulpit, Rev. S. B. Rogers being yet ill. Dr. Sledd will preach this morning at 10:30. There will be an extra offering of the choir, as Miss Irene McCreary will render exceptional violin music. Miss McCreary is a fine violinist, and her work is always appreciated.

The services at St. Patrick's Catholic Church promise to be interesting today. Right Rev. W. J. Kenney, Bishop of St. Augustine, is here, and will conduct the mass and deliver the sermon at this church this morning. He is a fine speaker and a good man, and will no doubt have a fine congregation.

Services will be held at the Advent Christian and Holy Trinity Episcopal churches at the usual hours.

Mrs. Laura G. Fixen, president of the Marie C. Brehm W. C. T. U. of Chicago, will lecture at the Chautauqua auditorium to night at 8 o'clock on "The Reality of the Unseen." All white ribboners are cordially invited to be present to welcome our interworker, sitting on the front seats. The first fifteen minutes of her lecture will be especially on the temperance question. A CARD TO VOTERS.

Mayor W. R. Thomas Calls Meeting of Citizens for Monday Evening.

To the Citizens of Gainesville:

Having been requested by a great number of our people to call a public meeting of the citizens of this city to be held at the court house on Monday night, for the purpose of considering suitable candidates for the various offices to be filled at the next city election, I hereby, in deference to the wishes of those who have requested it, call a public meeting of the citizens of this city to be held at the court house on Monday next at the hour of 8 o'clock p. m.

There will be no sign, grip or password necessary to entitle any citizen to enter, and every man who believes in an honest administration of the city government, in the impartial enforcement of the city ordinances, in the preservation of the public peace and the public morals, in the continued prosperity of the city, in making public improvements, owning its own electric light plant, and in upholding the name and reputation of our city, is cordially and earnestly solicited to be present. Every man who has a grievance or a kick is asked to be there. Outside of Tampa and Jacksonville no city in Florida is enjoying such unprecedented prosperity as Gainesville, and her future is just what the people of Gainesville intend it shall be. W. R. THOMAS, Mayor.

A Birthday Party.

A delightful birthday party of the young people was held Friday, when Horace and Donna, the sons of Mr. and Mrs. George Mason, entertained their young friends upon the occasion of their eighth and fourth birthdays.

There were many in attendance upon this occasion, including the pupils of Horace's class at Miss Tebeau's school. The afternoon was passed in a clever and pleasant manner, and many games were participated in. Delicious refreshments of ice cream, candy and cakes were served, which were enjoyed by the little folks.

At the conclusion of the ceremonies the little folks departed, wishing the hosts much happiness and many future returns of the day.

CLOSING PROGRAM AT THE CHAUTAUQUA

Saturday's Exercises Were Well Attended.

SETON INDIANS' EXHIBITION

They Entertained the Audience Saturday Afternoon With Athletic Games and Exercises—La Dell Concert Company in the Evening.

Saturday was virtually the last day of the program of the fourth annual session of the Florida Winter Chautauqua. Although services will be held this afternoon and this evening at the Tabernacle, Saturday virtually closed the official program, and the day's exercises were full of interest.

The school of physical education, which has been conducted by Prof. Rucker and Mrs. Adams, closed their engagement here. These people have proved very effectual in their work, as they have taught their hearers many things which are good and conducive to health. They have conducted a private class, composed of a dozen or more who desired to get the full benefits of the lessons in a practical manner, and none have regretted the course.

At 10 o'clock Prof. J. R. C. Brown of Virginia delivered the last of a series of Bible lectures and expositions which have occupied his time daily for the past five weeks. Prof. Brown is no stranger to the people of Gainesville, as he has been conducting these Bible readings for three years. His work is appreciated, as it is very instructive to those who desire to make a study of the Bible.

At 3 o'clock there was a final powwow of the Seton Indians, under direction of Miss Grace Lamkin. The Setons participated in a public exhibition of games and physical exercises at this meeting, which was largely enjoyed by the "Indians" and the audience alike.

At 8 o'clock the La Dell Concert Company gave their closing entertainment, which was highly enjoyed. This organization is one of the best of the kind ever seen here, and will always be on the list of favorites in future.

The Chautauqua for 1907 has been one of the best ever seen in the South, and was a credit to those who had the same in charge. The program has not only been more extensive, but of a higher order, and the people of Gainesville are under obligations to the management.

There will be services at the Tabernacle today. At 4:30 o'clock there will be vesper services, conducted by Dr. Clarence B. Strouse. There will be a grand mass meeting in the evening, at which there will be an address by Mrs. Laura G. Fixen of Chicago, who is foremost among the W. C. T. U. workers of the United States.

STOLEN HORSE RECOVERED.

Was Purchased From Negro by C. M. Dell, but Promptly Released.

Deputy Sheriff W. F. Puilliam of Reddick and Sheriff L. W. Fennell of this city have relieved Chas. M. Dell of a horse which Mr. Dell purchased from Davis Williams, a negro, a few days ago.

Mr. Dell was offered the animal by Williams at a very moderate figure, which was accepted. As a matter of course he was laboring under the impression that the animal was the property of the man who offered it for sale, and as soon as he ascertained that it was stolen property he immediately turned it over to the officers.

Williams was arrested, and is held in the Marion county jail at Ocala upon a charge of larceny of a domestic animal—in plainer words, horse-stealing. The matter will no doubt go hard with him, but that does not reimburse Mr. Dell for the horse.

Micanopy News Notes.

Micanopy, March 17.—A brick factory will likely be established in Micanopy in the near future.

Dr. L. Montgomery made a drive by private conveyance to Ocala last Tuesday in consultation with Dr. E. Van Hood.

The excellent old lady, Mrs. J. Porter Smith, of Wacahoota, has recently been very ill.

Will Stop at Kingston, Jamaica.

Washington, March 16.—On their return trip from Panama the congressmen now on the isthmus will stop at Kingston, Jamaica, and Port-au-Prince, Hayti. They will leave Colon next Sunday and will probably reach New York on March 24 or 25.

GRAND LODGE OFFICERS.

Prominent Knights of Pythias Elected to High Positions in Orlando.

The Grand Lodge session of the Knights of Pythias, which was in session in Orlando for two days, was one of the most largely attended and most interesting ever held in the State. There were many points of vital interest to the order brought up for consideration, and in all the session was one which proved of great benefit to the Pythians of Florida.

On Thursday morning the annual election of officers was held, which resulted in honor to a Gainesville man, Postmaster L. C. Lynch, who was elected Grand Chancellor, as has already appeared in The Sun. The following officers were elected for the ensuing year:

L. C. Lynch, Gainesville, grand chancellor.

J. E. Wolfe, Pensacola, vice grand chancellor.

H. Pritchard, St Augustine, grand prelate.

H. Clay Crawford, Tallahassee, grand master-at-arms.

H. H. Richardson, Jacksonville, grand inner guard.

William H. Lattimer, Tavares, grand keeper of records and seals.

Mrs Geo. P. Morris, who was present representing the Pythian Sisters, stopped over for a brief visit to friends, and is expected home in a day or two.

A Baby

Should be sunshine in the home, and will be if you give it White's Cream Vermifuge, the greatest worm medicine ever offered to suffering humanity. This remedy is becoming the permanent fixture of well regulated households. A mother, with children, can't get along without a bottle of White's Cream Vermifuge in the house. It is the purest and best medicine that money can buy. Sold by W. M. Johnson.

Demurrer Is Sustained.

Chicago, March 16.—Judge Anderson in the federal court sustained the demurrer filed by the attorneys of John R. Walsh, the former president of the Chicago National bank, to 20 counts in the indictments, charging him with misuse of the funds of the bank and overruled the demururer to the remaining counts, 160 in number.

A FINE RECOMMENDATION.

Ex-City Officials of Brunswick, Ga., Tell of Ben T. Arnow's Ability.

State of Georgia, County of Glynn, City of Brunswick.

Know all men by these presents, that we, Lewis W. Beach of said State, City and County, and Robt. Levison, also of said State, City and and County, do hereby certify:

That during the latter part of the year 1899, and the first part of the year 1900, we were respectively Chief of Police, and Assistant Chief of Police, or Marshal, and Assistant Marshal, as some term it, of the City of Brunswick, Georgia, in said State and County; the said Lewis W. Beach being Chief of Police, and the said Robt. Levison being Ass't Chief of Police. That during those years, they knew Ben T. Arnow, and that he served under them as a policeman in the employ of the City of Brunswick. That the said Ben T. Arnow was a good, fearless, honest, sober, faithful and efficient member of the police force, for and during all of the time that he served under them during those years. That they can cheerfully and they do recommend him for the position of Marshal so far as they can judge of the qualifications of that office, and they say that from what they know of him, that he will fill that position in a capable and efficient manner.

LEWIS W. BEACH,
ROBT. LEVISON.

To the Citizens of Gainesville:

Having given to you the above recommendation, showing my experience as a public official, will state that I served on the police force in Brunswick, Ga., when I was only twenty years of age, and I promise you that if elected I will carry out and enforce all the laws that fall to the duty of City Marshal that any honest and competent man should or could do.

BEN T. ARNOW.

THE HEALTHY STOMACH.

"We Never Know We Have a Stomach Unless Something is Wrong With It."

When you begin to realize that you have a stomach, it means that this organ is not in good condition, and it is reminding you of the fact.

Do not feel discouraged and miserable because of the presence of indigestion. It is the best thing in the world for you if you can only see it and give the stomach proper treatment.

Change the weak stomach to a healthy one by using Mi o-na stomach tablets. This remedy is not a mere digestive, giving only temporary relief, but a combination of remedies that actually strengthen the stomach, excite the secretion of gastric juices and enable the digestive organs to care for food you eat in a natural, normal way.

By taking a Mi-o-na tablet before each meal you can enjoy a good dinner without distress and suffering, and you will never know that you have a stomach.

J. W. McCollum & Co. have sold a good many 50c boxes of Mi-o-na stomach tablets, and the more the remedy is used the more friends it has, for every box gives satisfaction. It is sold under an absolute guarantee that the money will be refunded should Mi-o-na fail to give satisfaction. J. W. McCollum & Co. take all the risk, and the remedy will cost you nothing unless it cures.

Card of Thanks.

Edmund Shakespeare and wife desire to extend their sincere appreciation to Mesdames Phillip Johnson, Joe Williams, Susie Jones, Ophelia Reed, Anthony Parker, Ivory and others, for their kindness in the recent illness and death of their daughter, Patsy Culver, and beg to assure them that their friendship will never be forgotten.

A Cough Medicine

Ayer's Cherry Pectoral is a regular cough medicine, a strong medicine, a doctor's medicine. Good for easy coughs, hard coughs, desperate coughs. If your doctor fully endorses it for your case, then take it. If not, then don't take it. Never go contrary to his advice.

We have no secrets! We publish the formulas of all our preparations.

J. C. Ayer Co., Lowell, Mass.

STOP WOMAN AND CONSIDER

First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ills than any other one medicine known. It regulates, strengthens and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life.

Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Lydia E. Pinkham's Vegetable Compound

For more than 30 years has been curing Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and Organic Diseases, and it dissolves and expels Tumors at an early stage.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health. Write today, don't wait until too late.

SERMONETTES

BY J. MARVIN NICHOLS

In order to be with the crowd, some would forsake their best friend and ignore the sacredness of any bond. Some day the winds are going to shift and these deluded hearts will find themselves woefully in the lurch.

Read this: love transmutes every difference into hate. Right here is the reef on which the stateliest ships go down. Would to God we all possessed the higher power of love—the love that's blind to every solitary fault!

Sometimes it seems as if men and women must meet suffering in solitude; but in the bitterest pain, that which divided each human being from every other breaks asunder, and they draw near, and comfort and lean upon each other.

Character is the product of antagonisms. The muscle is made strong under every strain. We appreciate the strength of an ocean-going steamer by the many and terrible storms she withstands. The wearysome journey to the distant mountain height is necessary for the larger vision. To have something against which we must struggle bravely is to develop a character else insipid and worthless.

The man who makes life one continuous day of drudgery will paralyze his mind, turn his heart to stone, and transform his little day into one treadmill grind. The man who makes life a continuous day of lavish pleasure will but clog every noble passion and appetite and transmutes pleasure into pain. That is a happy man who discovers that drudgery which means competency, and that degree of pleasure which is endless satisfaction.

The final time has been decided by the United States Supreme Court to be June, and no other. A man was tried in Ohio for committing an act on a certain day. It turned out, however, that the crime was committed the following day, if you used the old and not standard. And the court set free. Many a man would be glad to sing through the bars were it not for the mere technicalities of the law. We are all going to win our case by a mighty close shave.

The Australian flings his boomerang with all his might into the air, but he expects it to make a circuit and fall again at his feet. So it is with every act. Be it good or bad, as the case may be, a law of fate orders that they shall return to the heart of him who started them on their journey. A kind word or one that makes us shudder the more, as it comes—completes the circuit and returns again to the soul whence they came. Thus we shall have our reward for every deed, whether good or bad.

When the moons dear old Nature brings us a thousand little nooks and dells of the woods and mountains to find what he is seeking. Little wonder there no one cares; where the waves roar and moans on a rocky shore, where the wild ocean-winds bring their soft whisperings from afar, where the deep forest's heart is full of inviting vistas, where two can wander and be quite alone, where the stars will keep the secret, where the sacred breath of the evening hour is full of soft and sweet suggestion.

Here the old and the new all in a heap. At least, one is reminded of a bit of fun when some girls are on the road:

"The little girl stood for some time in a crowded market waiting for some one to inquire her wants. Finally, the proprietor approached her and asked: 'Is there anything you would like, little girl?'

"Oh, yes sir, please; I want a diamond ring and a seal-skin sacque, a rich foreign nobleman and a pug dog and a box at the opera, and oh, ever so many things; but all ma wants is a dime's worth of bologna sausage."

UNIVERSITY NEWS NOTES.

Interesting Batch of News From That Institution—Dr. Siedd's Talks.

Dr. Siedd's talks at chapel on Tuesday mornings, and his informal afternoon lectures to such students as care to attend, are among the most interesting features of our college life. A large number of students attend the afternoon lectures regularly.

The weekly dress parades continue to attract many visitors to the campus. The time of these parades has been changed from Friday to Wednesday.

Two very interesting lectures on "Wireless Telegraphy" have been given during the week by Dr. J. R. Benton of the University. The practical illustration of the methods employed followed a scientific explanation.

The appearance of the campus has been greatly improved during the past week. Many oak trees have been planted along the driveways, and flowering plants have been set out in great numbers. In spite of the lack of rain, the grass planted some time ago is beginning to make a fine show. Only a short time and the campus will be extremely pretty.

A valuable donation to the library has recently been made by Mr. W. B. Clarkson of Jacksonville. Among the more valuable books presented by him are Thierry's Memoirs, Martin's Histoire de la France and a complete set of the Decennial Publications of the University of Chicago. The liberality of Mr. Clarkson adds materially to the resources of the library.

The Adams bill, which was passed last year by Congress, provides for annual increases of $5,000 to the amount given by the United States government to the experiment station, until the yearly income from this source reaches the sum of $30,000. The Nelson bill, passed during the closing hours of the recent Congress, similarly increases the amount given to the agricultural college fund by the Morrell act, until it reaches the sum of $50,000. One-half of this appropriation goes to the University proper, consequently next year we shall receive $15,000 from this source. The further annual increase will ultimately bring this part of our income to $25,000. The increase will greatly aid the State in building up a great school.

Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney editor of The Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the croupy cough appears, which can only be done when the remedy is at hand. For sale by all druggists.

HIGH SCHOOL NOTES.

The Sun's Special Correspondent Was Unusually Busy the Past Week.

Only two months and two weeks more of school. The end of the year's work will be here almost before we know it, and I fear before some of us are ready for it.

The principal has again offered a medal each to the Freshman and Sophomore classes for proficiency in Latin and Algebra. Several pupils from each class will enter the contest. From present indications it looks like both medals will be won by girls.

Her class-mates greatly regret that Ruby Deland of the Sophomore class has been compelled to stop school on account of her eyes. Ruby will be greatly missed, as she was a general favorite both with her teachers and class-mates.

Norwood Baker of the Sophomore class has withdrawn from school to go into business. His class-mates wish him abundant success.

There will be a ball game at the ball park Monday at 3:15 p. m. between the High School team and the second nine of the University. Admission 25 cents. We hope the people of the town will come out and see our boys give the University team all that is coming to them.

Last Monday Dr. Cole, whose lectures at the Chautauqua we all enjoyed so much, came over to put his little daughter, Catherine, in school for the remainder of the term. He remained to Chapel exercises, and gave us a most entertaining and interesting talk. He expressed himself as greatly pleased with the good order and excellent spirit of the school.

Rev. Cecil, State evangelist of the Methodist Church for Florida, visited the school Friday. He has recently moved his family to Gainesville. His visit to the school was for the purpose of arranging to place his two daughters in school. Miss Floy will prove a valuable addition to the Freshman class.

Little Connie Dean entertained us at Chapel exercises Wednesday morning with a charming little piano selection, which she played entirely from memory. It was greatly enjoyed by everybody.

The juniors are beginning to get a good grip on their geometry.

Miss Wallace is enthusiastic in praise of her Cicero class.

Miss Miller's botany class will soon begin the study of the flowers of the neighborhood. Botanizing trips are always enjoyable.

We desire to extend our thanks to Mr. C. A. Dobbins for a donation of a number of valuable books to our school library.

Porcelain Plant Destroyed.

East Liverpool, O., March 16.—The Electric Porcelain plant in the east end was destroyed by fire Friday in this city The loss is about $80,000. At Empire, below Wellsville, the Standard Brick Works burned with a loss of about $60,000.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ.

Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

THE HOLDER-CREWS AFFAIR.

LaCrosse Correspondent Furnishes More Light on the Subject.

LaCrosse, March 15.—Thursday evening in an altercation between Ivan Holder and S. L. Crews over a land line, Holder severely cut Crews in several places, inflicting serious and dangerous wounds Crews is attended by Dr. J. W. Roberts, who says the wounds are not necessarily fatal.

Crews recently purchased the land in question and erected a wire fence on the supposed line, dividing the land from that owned by Holder's wife. At the instigation of Mrs. Holder the county surveyor was here a few days ago and surveyed her land, taking a long piece of Crews' fence, and this caused bad feeling between Mrs. Holder's husband and Crews, and resulted in the difficulty.

Holder is an old and well known citizen, having lived here all of his life, while Crews is also well known, having been raised here, and is a prosperous, well-to-do farmer.

The trouble is greatly deplored by friends of both parties, as they are both very popular.

G.B.Burhans Testifies After Four Years

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." Tin Plate Plant Burns.

Pittsburg, March 16—Fire on Friday destroyed the plant of the American Sheet and Tin Plant company, at the foot of South Fourteenth street and slightly damaged the bolt works of the Oliver Iron and Steel works, adjoining. The loss to the tin plate company company was about $25,000 and to the Oliver company, $1,000. The fire originated from a car of lime which was set on fire by the high water. Four business houses and 15 residences have been burned to the ground in the Mount Washington district, or Twenty-seventh ward, across the Monogahela river.

How to Remain Young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at all drug stores. Price 50c.

Vice President of Trust Company.

Washington, March 16.—William J. Oliver, of Knoxville, Tenn., whose bid for the construction of the Panama canal recently was rejected was on Thursday night elected vice president of the United States Trust company of this city, which was recently organized with a capital of $1,000,000. Daniel M. Morgan, former United States treasurer, is president.

Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of The Herald, Addington, Indian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by all druggists.

Were Given First Consideration.

Washington, March 16.—The apportionment of 600 additional clerks at $600 per annum, authorized by the last postoffice appropriation bill, was announced at the postoffice department Friday. The amount of increased business and the overtime showing of the various offices were given first consideration.

The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

It has been discovered that apples wrapped in newspapers will keep all winter, the paper excluding the damp, says an exchange. Care should be taken, however, that the subscription be paid, or the dampness in the paper from what is due will spoil the fruit.

At the meeting of the Florida Press Association in Key West last week the following officers were elected for the ensuing year: President, Joseph H. Humphreys of Bradentown; Vice-President, Walter W. The new battleship Georgia will have her final trip tomorrow prior to her acceptance by the Government. Naval experts who have watched her performances in the preliminary trials express confidence in the ship's ability to meet, if not exceed all the requirements of her contract. The Georgia will be a notable addition to the navy. She is of the same general type and measurements as the Virginia and Nebraska.

It is officially announced that the Seaboard will enter St. Petersburg, thus giving that pretty and growing little city on the bay another big railroad system to work upon. Tourists and others going to St. Petersburg will hereafter be enabled to purchase tickets through to the resort city by the Seaboard as well as the Coast Line. They will also enjoy the same advantage in the freight department, which will not doubt give them a lower freight rate. This should mark a decided step in the progress of St. Petersburg.

Speaking of the strawberry industry, the current issue of The Starke Telegraph says: "Strawberry prices reached the highest mark of the present season Wednesday, when they brought from $8 to $11 per bushel. One grower, with whom the reporter talked, had nine bushels sold at $9.50 per bushel, giving him $85.50 for his day's harvest. The first crop is gradually being exhausted and the scarcity of the fruit has run the prices up high. The young crop of fruit is heavy and it is expected that the shipments will be heavy by April 1st."

The March number of Watts' Official Railway Guide, published at Atlanta, Ga., replete with information and of interest to the tourist and traveler, is before us and is a gem in its general make-up and typographical arrangement. The current issue begins the twenty-second year of its publication under the management of Mr. J. R. Watts, whose patience and perseverance with the "change of schedule" proposition is to be congratulated upon the result of his efforts in giving the traveling public an up-to-date and reliable publication. The wonderful growth of the South is more readily appreciated in comparing the first issue of the guide—a mere pamphlet—with the issue today of 248 pages, containing all the monthly time-tables, distances and connections with the hotel directory of the best commercial and tourist hotels. It is well worth the subscription price, $2 per year; 25 cents per copy.

FARMERS LOOKING FORWARD.

During moments of peaceful contentment nearly every man enjoys the pleasure of allowing his thoughts to enter into the mystic realms of fancy and build his castles in the air, even though a full realization of the mind's wishes and heart's desires is never obtained, says The Cotton Journal. Yet it is infinitely better to believe that the last round of life's ladder will be successfully scaled, than that we have already reached the limit of our career. A heart without hope and ambition can see no progress, and will win no success either for the individual or for his country. It is the man who is prepared to do or die in the great struggle of life, who, through energies rightly directed, builds a monument of usefulness not only to his own memory but for the future upbuilding of mankind.

The man who builds his air castles and then strives ultimately to attain the heights of his mind's fancy, will find pleasure not only in the happiness of imagination and prediction, but in the earnest endeavor to accomplish that which is possible for all men. Things which are unreal and beyond the power of man to accomplish must be left to the visionary fancy of poets, but the castles which we build must be based upon the foundation which we are already engaged in rearing. If that foundation is strong and substantial, the building, as it nears completion toward the end of life, will present an architecture of design and finish which will be pleasing to the eye of the designer and full of comfort to the owner.

Nowhere else in the world can such a castle, viewed through the life of the designer and builder, be more pleasingly illustrated, or more capable of accomplishment, than in the country. Out under the broad canopy of heaven, with a partnership formed with the unfailing resources of Nature's possessions, the farmer, by a judicious exercise of the gifts of intelligence and an appreciation of the opportunities presented him, should write success across the face of every fleeting year and know no moment save that of unalloyed peace and contentment.

The desires of a pure and unselfish heart will never find complete gratification in the accumulation of great riches. Power purchased through the hoarding and ownership of great wealth is not of that kind which is capable of doing the most good or the setting forth of example most worthy of emulation. The many are today suffering from an unfortunate state of affairs which has enabled the few, through a control of the currency of the country, to dictate from a selfish standpoint the price of those commodities embracing the necessities of life and which should rightly go before the consumer in the healthy and righteous competitive avenues of trade. Every person engaged in the high and commendable cause of lending a helping hand to his fellows in time of need, however light that help may be, if given freely, is far more to be honored than one who uses his millions for selfish gain and with leech-like tenacity saps the very life blood from the thousands of souls who lie helpless at his feet.

The Government of a free and independent people whose constitution guarantees "Equal rights to all and special privileges to none," should guard with watchful care the rights of each individual and check without delay the ruinous effect on trade which the concentration of capital in the hands of a few is capable of bringing about.

Under the vigorous enforcement of wise and just laws by which competition may be permitted to go forward unmolested, and with the farmers of our country rising up to a full appreciation of the possibilities within their reach, developing the varied resources of the country, the South will be found ten years from today forging rapidly ahead in the arts and sciences of agricultural and mechanical development.

RURAL FREE DELIVERY.

Many new rural free delivery routes have been established by the Government during the past few months, but it is the intention of the authorities of the Postoffice Department to only supply the service where it is appreciated, as is evidenced by the following article dated Atlanta, March 11th, which appeared in The Savannah News:

"Notification has been received from the Postoffice Department in Washington of the discontinuance of two rural routes in Fulton county. The order goes into effect April 30.

"Special interest in the matter at this time grows out of the complaint that in many sections of Georgia absolute indifference to the rural free delivery system is manifested, patrons living on many routes even refusing to go to the extent of investing $1.25 in a small box to be set upon a post in front of their homes. This is the only requirement the department makes of the patron, and he is given his mail free every day except Sunday.

"This manifest indifference has resulted in the discontinuance of many rural routes in Georgia and other States of the South, and the indications are that there will be soon a falling off in the number of such routes instead of an increase. It is stated that conditions are far different in the Eastern and in the Western States, where every possible inducement is offered for holding on to and increasing the number of routes served."

Ex-President Grover Cleveland will celebrate his seventieth birthday tomorrow, and many telegrams and letters of congratulations will be received at his home. Mr. Cleveland is now enjoying his annual spring pleasure trip in the South. It is to these regular hunting and fishing trips that Mr. Cleveland attributes in no small measure his robust health at the age of three score and ten. It is interesting to note that of the twenty-five men who have served as President of the United States, eight of the first twelve who filled the office lived to be 70 years of age or older, while of the thirteen who followed in the office of chief executive of the nation there were but four who lived to the age of seventy—Presidents Fillmore, Buchanan, Hayes and Cleveland. It is now 22 years since Mr. Cleveland first assumed the burdens of the White House. Only five other Presidents lived so long after their inaugurations, and these were the two Adamses, Jefferson, Madison, Van Buren and Fillmore. No President inaugurated in the past half century, except Mr. Cleveland, has survived his inauguration for more than 16 years, which was the record of General Grant.

Did you ever stop to catch a vision of the greatest standing army in the world? The school-children of the United States outnumber the entire population of Spain. They far surpass numerically all the fighting armies of Europe put together, on a war footing. The destiny of the nation throbs in every pulse-beat of these on-coming hosts. America's future rests with these teeming thousands—for a nation can never be greater than her sons. Herein is our amazing responsibility. It stands before us with solemn lips of question. As we lead these throngs into the larger life we proportionately swing the old world far out in the orbit of her appointed destiny. This world of young blood is the unerring prophecy of all the coming years.

MACON'S $450,000 POSTOFFICE.

Central City's Home for Uncle Sam To Be One of Best in the South.

Macon, Ga., March 16.—When the new postoffice building in Macon is completed the city may boast of one of the best homes for the employees of Uncle Sam that is to be found in any southern city.

The outlay of money for the new building is something over $450,000, and every cent of it will be put to a good advantage. In the past a red brick, marble-trimmed structure was the postoffice in Macon, but the new building is to be of mable on all sides.

So far, the work has progressed to a half-way point between the second and third story, and if what the contractors believe comes true, the roof will be on in forty days.

A delay in the arrival of marble and a three days' strike has set the work back somewhat, and there is not little probability of the building being turned over to the government on the first of July as the contract calls for.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by all druggists. 50c and $1.00. Trial bottle free.

Killed Girl and Self.

New Orleans, March 16.—Accosting Miss Eudez Dobson, his 17-year old sweetheart, on the main street of Pointe-A-La-Hache, La., Thursday afternoon, Whitney Mollers, a young planter, asked her to marry him and upon being refused, shot and killed the girl with a revolver. Replacing the weapon to his own head he fired again and fell dead on her body. Miss Dobson was the daughter of Ernest Dobson, prominent planter of Plaquemine parish.

Listen

Remember that next time you suffer from pain—caused by damp weather—when your head nearly splits from neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of Hempstead, Texas, writes: "I have used your liniment. Previous to using it I was a great sufferer from rheumatism and neuralgia. I am pleased to say that I am free from these complaints. To what I owe this to your liniment." W. M. Johnson.

Heavy Storm Strikes Macon.

Macon, Ga., March 16.—A severe electric wind storm, striking Macon after dark on Thursday evening, did considerable damage to property. The entire glass front of the Rosenberg company, on Third street, was destroyed by the strong wind. The damage here amounts over a thousand dollars. Other losses in the business section suffered slighter losses. The storm was terrific for more than an hour and the rainfall was very heavy.

Don't Complain

If your chest pains you and you are unable to sleep because of a cough, take a bottle of Ballard's Horehound Syrup, and you won't have any cough. Take a bottle now and that cough will not last long. A cure for all pulmonary diseases. Mrs. J—, Galveston, Texas, writes: "I can't say enough for Ballard's Horehound Syrup. The relief it has given me is all that is necessary for me to say." Sold by W. M. Johnson.

Will Appeal for Loan.

Kingston, Jamaica, March 16—The Archbishop of the West Indies headed a delegation which left Thursday night to appeal to the government to authorize a loan for the building of Kingston. With the archbishop's party also went a delegation of policy-holders in various English companies who wish to discuss with the management of the companies the question of settling their losses.

Was Fond of Precious Stones.

Vienna, March 16.—That the late shah of Persia was fond of precious stones is indicated by a despatch from Teheran, which says that an inventory has revealed that he left jewels to the value of $50,000,000. Chief among them are diamonds. One portion of the state paraphernalia, a jewel studded belt, is valued at several million dollars. It weighs eighteen pounds. The famous diamond studded sword and scabbard is said to be worth $1,250,000 and an emerald bedecked silver vase with one of the stones of such size that the shah's numerous titles were engraved on it, is regarded as almost priceless. Among other treasures found was a block of pure amber, containing 40 cubic inches, which is said to have dropped from the skies on the tomb of Mahomet.

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Lagrippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." J. W. McCollum & Co.

Willing To Have Hair Cut.

London, March 16.—As an indication of the length to which women suffragists are willing to go in order to obtain admission to the house of commons where they may make demonstration, Mrs. Martin, the new secretary of the woman's political union declares they are willing to have their hair cut. When asked if the suffragists would also adopt male attire, the secretary refused to answer the question.

Clears the Complexion.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. J. W. McCollum & Co.

MRS. COTTRELL'S WORKS.

Her Last Novel Has Been Published, and is Very Popular.

Among the novelists and authors of the country who are gaining rapid popularity is Mrs. Minnie Cottrell of Cedar Key, the last literary work of whom has created much interest. This work is a novel, "Nortin Hardin," and the story is a Florida romance of unusual interest. The book has recently been printed, and has won for the authoress much favor.

Mrs. Cottrell is now engaged compiling a story which it is said will be published in The Woman's Home Journal. It will be a story with scenes laid in North Carolina, and judging from the past literary efforts of the authoress, will prove a great success.

A Reliable Business Firm.

Messrs. Malphurs & Tuttle have acquired quite a reputation in the building line. They are responsible contractors and will build you a house from the finest to the cheapest. They have just finished two fine houses for Mr. W. M. Wilson, two for Mr. W. H. Robertson on Alachua avenue, one for J. E. Ivers on East Main street, and one for Prof. T. F. McBeath. They are now building a handsome home for Mr. W. W. Colson.

It will pay prospective builders to consult these gentlemen before closing their contracts.

The following letter explains itself. This letter was unsolicited on the part or Messrs. Malphurs & Tuttle:

"Messrs. Malphurs & Tuttle, City:

"Gentlemen—Trusting that it may not prove unacceptable to you, I take great pleasure in sending you this unsolicited testimonial of my appreciation of the promptness and very satisfactory manner in which you have carried out your contract in the erection of the eight-room house you have just completed for me on University street.

"I am delighted with the work, which, so far as I am able to judge, is first-class in every respect.

"I have never had business relations with men who, it seemed to me, were more conscientious in fulfilling their contract, or who were more pleasant and agreeable to deal with.

"If at any time a word from me can be of any assistance to you, you are at liberty to refer to me.

"Yours truly,
"Tom F. McBeath,
"Principal Public School."

Brokerage Firm Suspends.

New Orleans, March 16.—The suspension of Witcher, Zemurray & Co., a well known local brokerage firm, was announced Friday. Recent deals of clients on the wrong side of the market and failure of these clients President James F. Witcher as the cause of the suspension. The firm will pay all claims, remaining open today for that purpose. No statement of assets and liabilities was made public.

Horses Burned to Death.

Jackson, Miss., March 16.—Incendiaries set fire to the stock barn of the Oakley convict farm and the structure was burned to the ground. Forty-one horses were burned to death and a large quantity of feed stuff was destroyed.

Ceiling of Hall Falls.

St. Petersburg, March 16.—The ceiling of the hall in the Taurida palace where the lower house of parliament meets, collapsed at 6 o'clock Friday morning and caused widespread wreckage among the seats below.

Car Service Resumed.

Louisville, Ky., March 16—Car service which was interupted last Sunday morning by the strike of employes of the Louisville street railway company, was resumed Friday morning on all lines.

Order Is Renewed.

Rome, March 16.—The congregation of the inquisition has renewed the order of the ex-communication against Archbishop Vilatte, head of the French apostolic Catholic church.

Birds Evolved From Reptiles.

It may be a shock to some persons to learn that the birds of the present day are descendants of reptiles. This fact has been conclusively proved by the fossil remains of creatures that form the intermediate stages between the birds of today and the reptiles of prehistoric ages. In fact, many of the birds have not yet completed their evolution, as in the case of the penguin, whose wings are merely rudimentary, absolutely inadequate for flying purposes and useful only as a means of propelling these awkward creatures through the water.

Ruskin and Chrysanthemums.

Mr. Ruskin was asked if he did not admire chrysanthemums. Now, he liked nothing abnormal or artificial, and he regarded the production of chrysanthemums as an unhallowed attempt to grow flowers at a season when nature meant that there should be no flowers, and so the startling answer came, "I hate chrysanthemums."—Westminster Gazette.

Friendly Advice.

Coal Dealer—I want to insure my stock of coal. How much will I have to pay yearly on 150,000 francs' worth? Insurance Agent—Is it the same as you sent me the other day? Coal Dealer—Exactly. I. A.—Then take my advice and do not insure at all. Nothing could possibly make that coal burn.—Caricaturista.

Cheerfulness.

Cheerfulness is a sign of sanity. It is the person who has no laughter, no fun in his nature, the person who becomes morose and melancholy, who is in danger of losing his balance.—Success.

Ponce De Leon Celebration—St. Augustine.

On account of the Ponce De Leon celebration at St. Augustine, Fla., April 2nd to 4th, 1907, inclusive, the Atlantic Coast Line railway will give a special rate of one and one-third first-class fares for the round trip. PRISONER ESCAPES BY A RUSE.

Had Deputies to Carry Him to Mines To Locate Fake Pot of Gold.

Birmingham, Ala., March 15.—Webb Lynn, a man charged with numerous crimes in this county, and whose escape from the convict camp several months ago created a sensation, was captured and brought here from Nortonville, Ky.

Lynn's method of escape was one of the most novel in the criminal history of Birmingham. He convinced two deputies at the jail that he knew where a pot of gold was concealed in the mine in which he was working, and offered them half of the prize if they would take him unhandcuffed to the mine one night so he could show them.

The deputies yielded, and when the three got well into the mine, Lynn blew out the light, and being familiar with the mine made his escape before the deputies could recover from their surprise. He has been at large since.

Eczema, Tetter, Salt Rheum, Itch, Ring Worm, Herpes, Barbess' Itch.

All of these diseases are attended by intense itching, which is almost instantly relieved by applying Chamberlain's Salve and by its continued use a permanent cure may be effected. It has, in fact, cured many cases that had resisted all other treatment. Price 25 cents per box. For sale by all druggists.

To Fight Industrial Workers.

Goldfield, Nev., March 16—Thursday night the citizens of Goldfield organized to fight the industrial workers of the world. Every mine and every store will be closed indefinitely afor 12 o'clock Friday. It is agreed that no person in Goldfield shall employ any worker who is a member of the industrial workers of the world. It has also been determined to back up the American Federation of Labor in its effort to organize the local trades. The citzens have appointed 100 special officers to patrol the city and preserve order.

A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by all druggists.

Memphis Charter Bill Passed.

Nashville, March 16.—The Memphis charter bill, over which one of the bitterest fights that has been waged in a Tennessee legiature for years, was passed by the house Friday. The effect of the bill is to abolish the city government of Memphis and gives Governor Patterson the power to appoint new city officials. Senator Carmack led the fight for the opposition. The bill had previously passed the senate.

Worked Like a Charm.

Mr. D. N. Walker, editor of that spicy journal, The Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at all drug stores. 25c.

Alabama Murderer Hanged.

Mobile, Ala., March 16.—At 5:55 o'clock Friday morning Andrew Thomas White, aged 28 years, was hanged for the murder of his wife on May 9 last. Death was pronounced by the physicians twelve minutes after the drop. Thomas' crime was the most brutal in the criminal annals of Mobile county.

Found at Last.

J. A. Harmon, of Lizemore, West Va., says: "At last I have found the perfect pill that never disappoints me; and for the benefit of others afflicted with torpid liver and chronic constipation, will say, take Dr. King's New Life Pills." Guaranteed satisfactory. 25c at all druggists'.

Bomb Explosion Caused Panic.

Madrid, March 16.—A panic was caused in the neighborhood of the home of Baron Zerratori, president of the Catholic League at Valencia, on Wednesday night, by the explosion of a bomb on the doorway of the baron's residence. No one was injured.

Sleeplessness.

Disorders of the stomach produce a nervous condition and often prevent sleep. Chamberlain's Stomach and Liver Tablets stimulate the digestive organs, restore the system to a healthy condition and make sleep possible. For sale by all druggists.

RHEUMATISM BREAKS DOWN
THE STRONGEST CONSTITUTION

Rheumatism is caused by a sour, acid condition of the blood, brought on by chronic constipation, weak kidneys, poor digestion and a general sluggish condition of the system. Because of these irregularities the refuse and waste matters of the body are not promptly expelled, but are left to sour and ferment, producing irritating acids which are taken up by the blood and distributed to all parts of the system. This acrid matter weakens and diseases the blood so that instead of supplying the body with nourishing, healthful properties it deposits the poison with which it is loaded into the muscles, nerves, bones and joints, and Rheumatism gets complete control of the system. Some suffer almost constantly with the disease, while others have intervals of freedom, during which they live in constant dread of the next attack, when an exposure to cold or dampness or some other irregularity will cause the symptoms to return. If the cause is not removed Rheumatism will progress and reach a point where it becomes incurable, and the strongest constitution will break down. S. S. S. has been curing Rheumatism for more than forty years. It attacks the disease at its head by going down into the blood and removing every particle of the acrid matter and building up the weak, sour blood to a state of purity and richness. S. S. S. is the King of blood purifiers, just what is needed for the cure of Rheumatism. Book on Rheumatism and any medical advice sent free.
